My Super Cool Toy Truck

by Samaanyu Handa

I have a really cool toy truck that I want to tell you about! It's not just any toy truck; it's super detailed and has lots of fun features. It's my favorite toy, and I think it's awesome!

My toy truck is a model of a MACK Granite truck. It has a Bulldog as their logo. (A fun fact: Mack trucks have been around for 125 years!)

My truck is yellow and blue in colour and it has a snow plow blade. The snow plow is yellow and orange mixed together. It looks really cool! My truck even has sirens! You can change the color of the siren! There are 4 different siren colors you can pick. You can make it go from blue to orange!

It has 2 steps so toy people can climb into the truck. I think it's very detailed and looks real. It even has side mirrors that can fold in.

This truck is one of the top ten Bruder trucks. That means it's a really good toy.

So what is your favorite toy?
