Superpowers!

by Amelia DeLeon

There was a group of 6 friends named Jake, Leo, Adam, Ava, Taylor, and Violet. One day they went to this abandoned place. They were walking to the place and they fell into this capsule with chemicals. They got out, but there was something wrong with them. The next week they went to a scientist to find out what was wrong with them. They found out they had superpowers! They were very dangerous. Jake had super speed. Leo had super strength. Adam had mind control. Taylor had super scream, Ava had time travel, and Violet had fire powers. The scientists needed to train them for fighting crime. What were their super names? Jake's super name was...Jk. Leo was...the power king. Adam was...the mind time. Taylor was...I'm the real scream. Ava was...time teller. Violet was...fire girl. They trained for crime, eventually they learned how to fight crime. The team name was JALTS when they went to fight crime. An evil man named The Joke came. He wanted to rule the world and control the town. The JALTS won the superhero of the year award and their power got stronger and better.
